OK. Not a problem. We are organizing this on our end too to provide an electronic folder that everyone can access so we may have another solution for your needs as well.

Thank you, I’m down to one person in the office, so it makes it difficult to keep up.

We are working with each pension board to schedule a presentation. I believe their actuarian analyst will need to come in to present and effectively answer your questions. Also we have not done our full internal review in order to assist with any recommendations. We merely were sending the info now so it was available to you. We will ask the executive directors to be here tomorrow as part of the budget wrap up.

We had ask Council’s staffs to assist us in downloading and assembling the information being requested as we are sending out as it came in. We will pull everything together thru OMB and make sure we have it assembled for tomorrow.

Lynly,

I requested a presentation by the pension administrators of each fund not just their actuarian reports. If the Police and Fire pension members can go publicly on television and present data, then they can certainly provide this council with a presentation of their fund’s status. You may want to go back and review the video since our minutes do not reflect actual comments.

Additionally, will you gather all the responses that were posed by council during the multitude of budget hearings and put them together for us? It’s inconceivable to me that you are sending us responses sporadically and we’re suppose to keep track of what you’re sending.

Thanks
